

# ZipLink®: The Game-Changing Solution for Parcel Sortation

**INDUSTRY**  
Logistics

**PRODUCT**  
Ziplink®

**PROCESS**  
Parcel Sortation in Logistics Facilities

**Situation**

**Extensive hours dedicated to belt maintenance and replacement.**

Parcel Sortation facilities typically have numerous short belts installed in hard-to-reach locations, where bringing splicing tools can be both challenging and hazardous. Additionally, installation frequently necessitates disassembling a significant portion of the conveyor system.

**Solution**

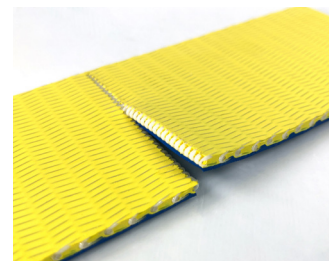

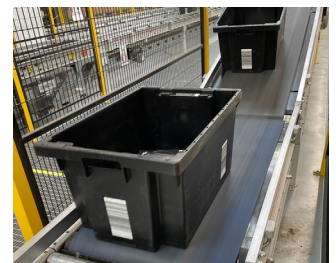

**ZipLink® belts enable swift replacement, completed in minutes,**

while the high-quality top covers significantly extend the belts' lifespan, simplifying maintenance. This innovative belt series is engineered to deliver advantages across various applications within the Parcel Sortation industry, including gapping, live roller, strip merge, general and incline transport, and high-speed merging.
